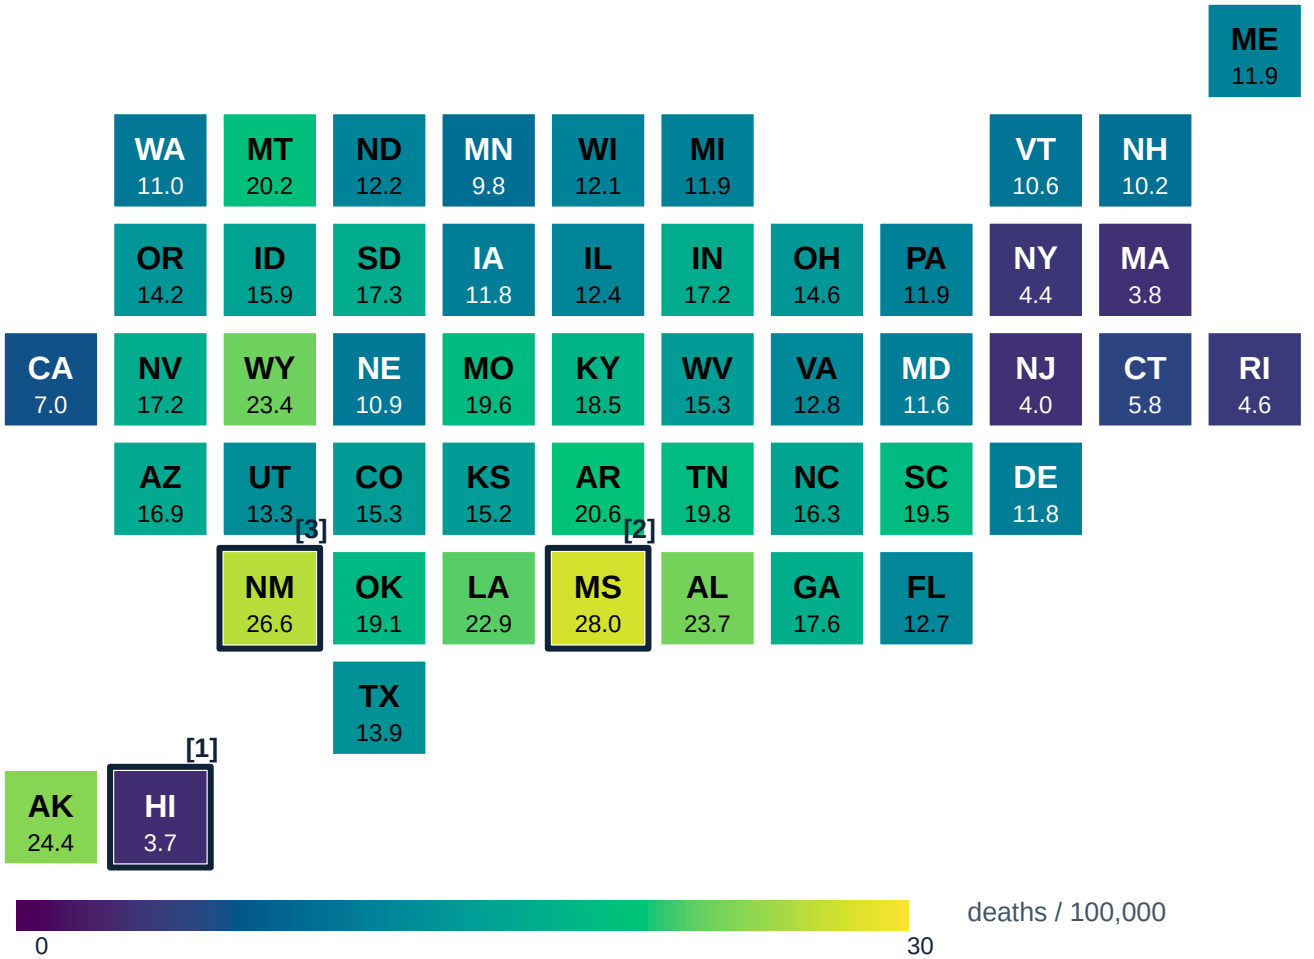
Hawaii has the lowest rate; Mississippi has the highest

2024 CDC annual age−adjusted firearm deaths per 100,000



[1] Hawaii: 3.7

Lowest rate / strictest (A)

[2] Mississippi: 28.0

Highest rate / most lax (F)

[3] New Mexico: 26.6

Strict (B−) with high mortality

The pattern has exceptions

One equal−size tile per state. Schematic geography. Sources: CDC API and GIFFORDS 2024.
